

Recruitment Grant

Many new training materials have been purchased with the new grant monies. These materials are available through our “Lending Library”. The new resources are not meant to replace our monthly trainings, but to assist in educating foster care parents about a specific issue they may be experiencing.

We were also able to order the Window and Door Alarms that many of you have been requesting for several years. Tammy Jo will be distributing these first to our therapeutic homes for a trial. They will then be distributed to other homes based upon need.
